

I hope you will consider changing the ruling that will allow expansion of ownership of the media, resulting in monopolies. Please vote against, or at least delay this meeting. The FCC is a government organization, designed to protect the public. Limiting access to a diversity of information will eventually limit freedom of speech and expression. You will be doing this country a disservice. Furthermore, losing independence of small rural stations could limit reporting local news and weather with adverse effects, loss of lives and property. It will limit the entrepreneurial spirit, creativity, and independence that this country is known for. Have a conscience. Thank you.
